

Program Guidelines

1. Applications must be submitted within 60 days of purchase date.
2. City Utilities residential and/or commercial water customers who replace existing tank-type toilets are eligible for a \$75 rebate after the purchase and installation of a High Efficiency Toilet with the WaterSense label.
3. New homes and businesses under construction are eligible for a \$75 rebate, after the purchase and installation of a High Efficiency Toilet with the WaterSense label rated at 1.28 or less gallons per flush. To qualify for the rebate, the new home or business must be a City Utilities water customer.
4. Residential customers may receive up to three (3) rebates per service address. Commercial customers may receive up to six (6) rebates per service address.
5. Toilet purchase must include both bowl and tank.

Guidelines continued:

6. A completed application is required, including the manufacturer and model number of the toilet(s).
7. Rebate will not exceed the toilet purchase price.
8. Customer must submit a dated, detailed invoice/sales receipt as proof of purchase.
9. Old toilets must not be reused. Participants agree to destroy or disable their old toilets, and dispose of properly. City Utilities encourages recycling, if possible.
10. Failure to provide required information may result in denial of the rebate.

Efficient Toilet Rebate

City of Luverne water utility customers who replace existing toilets are eligible for a \$75 rebate after the purchase and installation of a High Efficiency Toilet that has the WaterSense label. Also, new homes and businesses under construction, customers who choose a High Efficiency Toilet with the WaterSense label are eligible for the \$75 rebate.

Efficient Toilet Rebate Program

Save Water, Save Energy, Save Money

Toilets are by far the main source of water use in the home, accounting for nearly 30 percent of an average home's indoor water consumption. Older, inefficient toilets also happen to be a major source of wasted water in many homes.

City of Luverne water customers who replace existing toilets are eligible for a \$75 rebate after the purchase and installation of a **High Efficiency Toilet** that has the WaterSense label. For new homes and businesses under construction, customers who choose a High Efficiency Toilet with the WaterSense label are eligible for the \$75 rebate. **High Efficiency Toilets use 1.28 gpf or less.** Toilets manufactured earlier than January 1, 1994, use between 3.5 to 7 gpf. By participating in this rebate program, you could save approximately 6,000 gallons of water per year, while at the same time knowing you are doing your part to conserve water. *Certain restrictions apply; see Guidelines on back.*

How to apply for your rebate

1. Purchase a High Efficiency WaterSense labeled toilet.
2. Install the new toilet. Contact the Building Official to schedule an inspection at 507-449-5031.
3. Submit the following information to the Building Official at time of inspection:
 - a. Application form.
 - b. Copies of your dated invoices and/or sales receipts for a 1.28 gpf High Efficiency Toilet.
 - c. Toilet Brand and Model Number.
4. The rebate will be processed after the inspection and the properly submitted application and information is received.
